Whirlpool CORPORATION

18 June 2019

Attn. Vadim Livshyts
Managing partner
FRB (integrated Real Estate Provider)

Dear Vadim,

I would like to thank FRB PM team for leading the project of our new office space of 984,7 m² reconstruction and fit out at 2-A, Yevhena Sverstiuka Str. in Kiev (on the 7th floor of Livoberezhnyj business center). FRB PM team supported the project since its beginning (office concept design and project documentation development) till successful completion of construction works and relocation of our employees to the new office.

During the construction phase of the project, FRB demonstrated high ethical standards in communication, people management and coordination skills to liaise project documentation provider and general contractor to achieve aggressive time goals. Effective management on each stage of the project, active problem-solving approach and quick reaction to each Whirlpool request, deep knowledge of each construction process details – were the key elements of the success delivered.

In addition to listed above, I would like to mention excellent planning skills and transparent communication between FRB and Whirlpool which ensured full visibility of what was going on at the construction site at any given moment. FRB team also managed to provide effective system of key materials delivery to the site, which was important integral part of timely project accomplishment.

I highly appreciate FRB leading role in finding a way through many difficult situations during the project. FRB support during construction stage of the project and high dedication to resolution of snagging list issues helped us a lot in successfully completing the project to full satisfaction of our management and employees when we relocated to the new office in May 2019.

It's my pleasure to recommend FRB to any company for further execution of PM role in other projects.

Yours faithfully

Dmytro Ostapenko
Finance Director
